ABOUT ME

I am a German-speaking Web Developer with experience in building web apps with JavaScript, Angular & React. I started my IT journey coding small websites at home and then decided to get professional training and build projects.

In my school years I made my first acquaintance with programming (Pascal) and web design. During my studies I discovered more and more my attraction for analysis and problem solving. So I kept programming in my mind. Thanks to the support of my family I reached my goal to become a Frontend Developer.

My passion is to educate myself and take on new challenges. I enjoy acquiring new knowledge and putting it into practice. So I am looking forward to building on my experience and starting my career in IT in a junior developer position.

SKILLS

- **Building Applications with JavaScript & Angular:**

I built landing pages and several web apps, as well as OOP-based Jump-and-Run-Games with the respective technologies.

- **Working in a Software-Team:**

During learning coding, I did various group projects where I learned how to develop a software project in a team.

- **High sense of responsibility:**

I am used to taking responsibility and working diligently, as I always did in my job as a Management assistant.

- **Analytical thinking:**

In my studies in finance I learnt how to solve problems with an analytical and structured approach, that turned out to be useful while coding as well.

EDUCATION

Feb 2022 - Jan 2023

Munich, Germany

Sep 2016 - Feb 2018

Kharkiv, Ukraine

Sep 2016 - Feb 2018

Kharkiv, Ukraine

Sep 2012 - Jun 2016
